

# KANGAROO ISLAND SCULPTURE TRAIL

## The Trailblazer Program-

help this amazing community project develop into a world class experience!

The Kangaroo Island Sculpture Trail is a 1.5km Trail set on 4.45 hectares of bushland overlooking the stunning Hog Bay, Penneshaw. Designed as an iconic drawcard for locals and visitors, it balances the richness of Kangaroo Island's wildlife and natural environment with cultural appeal.

Visible from the main arrival and departure point for locals and visitors to the Island, the Sealink ferry terminal, it is managed by the Penneshaw Progress Association (PPA).

A key feature of this trail is the interpretation of nature and its features, focussing on a range of sculptured forms and landscapes, natural materials, found or reclaimed objects, or materials sympathetic to the site.

Together with delivering better economic outcomes for the community and the wider tourism orientated businesses on Kangaroo Island, this project has major social outcomes as a key goal. It will revitalise Penneshaw, allowing shops and community and farmer's markets to prosper, sharing local wealth and refresh an unused central part of the town. It will engage, support and inspire local artists, support healthy activity and assist in strengthening the local fabric of this unique community.

This community-led project is strongly supported by Kangaroo Island Council and local business and new artistic features will be added annually or more often, with most core installation sites assigned over the next 5 years.

Entry to the trail will remain free so it is open to everyone to enjoy.
